

EPOXY MORTAR SYSTEM

DESCRIPTION

A solvent free 4-6mm aggregate filled epoxy.

BENEFITS

- Non slip finish.
- Solvent free ; low odour.
- High abrasion resistance.
- Easy to clean & sterilize, low maintenance requirement.
- Seamless & hygienic finish when sealed, no crevices where dirt and bacteria can dwell.
- Excellent chemical resistance to sugar & acids when topcoat with suitable epoxy/polyurethane toppings.

RECOMMENDED USES

- To provide a heavy duty, chemical resistant and hardwearing floor finish.
- Areas for use are wet and dry process areas, warehouse, biotech plants, chemical plants, manufacturing areas and car parks.
- Can be used as a coving material around wall parameter and for patching or filing up above 3mm voids where the floor is subjected to heavy traffic, impact and chemical spills.
